

City and County Childcare Committees (CCCs)

The City and County Childcare Committees (CCC's) work together locally and nationally and offer a wide number of services.

The CCC's support the delivery of the National Childcare Programmes; Early Childhood care and Education Programme (ECCE), Community Childcare Subvention Programme (CCS) and Training and Employment Childcare Programmes (TECs). They offer guidance to parents and childcare service providers on an ongoing basis and act as a local centre of information in relation to early childcare and education.

They also provide information on local childcare facilities and details of parent networks and many have on-line information for parents seeking childcare.

For further information contact your local City and County Childcare Committee.
